

## COLOUR

## Luminaire Descriptions

Luminaires are suitable for many indoor applications in commercial, residential, retails and offices areas such as corridors, lobbies, receptions, meeting rooms, etc.

Housing is made of die-cast aluminium material with white epoxy powder coated finish and **Opal** diffuser cover. Luminaires come with **PSB Safety Mark** LED Driver as part of assurance to users in terms of quality and durability.

**Presettable Switch** allow easy presentation to users and offer a trouble-free solution to match final design colour scheme that users would like to achieve.
